Exceptional solution

Graphictac Technologies

The logo for EzWrap, featuring the word "EzWrap" in a stylized font. "Ez" is in grey and "Wrap" is in orange, with a wavy orange line above the "z" and "r".

EzWrap Technology

EzWrap is an effortless wrapping technology, combining a low tack / slow rise adhesive with soft initial tack, together with MicroFlo air egress liner to allow high repositionability during installation, without diminishing the ultimate bonding strength. It offers vinyl applicators a pleasant experience and increased productivity in all application environments.

The logo for MicroFlo, featuring the word "MicroFlo" in a stylized font. "Micro" is in grey and "Flo" is in orange, with a wavy orange line above the "o". To the left of the text are several blue bubbles of varying sizes.

MicroFlo technology

This custom-tailored advanced air egress technology developed specifically for EzWrap technology and only available at Graphictac, it's comprised of tiny microscopic air channels for fast releasing of air bubbles and flowy-installing on substrate as well. You will pleasantly enjoy the smooth flow and quick wrapping experience without compromising on the bonding strength to substrate, our technology ensures a speedy and secure installation.

The logo for EzPeel, featuring the word "EzPeel" in a stylized font. "Ez" is in orange and "Peel" is in grey, with a white paper-like effect behind the text.

EzPeel Formulation

EzPeel is our removable solution that offers:

- Low initial adhesion allows smooth removal without overstretching the film.
- Offering superb repositionability with consistent adhesion for long-term removability.
- Easy peel enabling a clean final removal without damaging the substrate surface.
- No adhesive residue left behind after removal.
- Suitable for interior drywall wraps and decals, general signs/decal/ POP.

The logo for RoughGrip, featuring the word "RoughGrip" in a stylized font. "Rough" is in red with a brick-like texture, and "Grip" is in grey. A white paper-like effect is behind the text.

RoughGrip Formulation

Our high tack & grip adhesive solution is an aggressive and permanent PSA, designed to grip onto difficult substrates, such as metals, plywood, textured walls (i.e concrete, brick..etc), even textile (i.e. mesh fabric). We strongly recommend you to test it before ordering.

Category	Product code	Film material	Film thickness	Finish	Adhesive	Release liner	Options	Indoor / outdoor	Durability	Ink compatibility
Multipurpose white printing	1000-991	Polymeric	3mil (75µm)	Gloss white	Permanent clear non-residue	80gsm white paper double-PE coated	Grey adhesive or Air release liner	Indoor / Outdoor	Up to 5 years	
	1000-992			Matte white						
	1000-991R			Gloss white	EzPeel removable, clear repositionable, non-residue					
	1000-992R			Matte white						
	1000-971	Monomeric	3.3mil (85µm)	Gloss white	Permanent, clear, non-residue	140gsm white paper Single-PE coated				
	1000-972			Matte white		80gsm white paper double-PE coated				
	1000-980			High glossy white						
	1000-983		High opacity gloss white							
	1000-984		High opacity matte white							
	1000-983R		4mil (100µm)	High opacity gloss white	EzPeel removable, clear, repositionable, non-residue					
1000-984R	High opacity matte white									
Multipurpose clear printing	1000-P990		Polymeric	3.2mil (80µm)	Ultra crystal clear	Permanent, clear, non-residue	75 microns matte clear PET	N/A	Indoor / Outdoor	Up to 5 years
	1000-P990R	EzPeel removable, clear, repositionable, non-residue								
	1000-000	Monomeric	4mil (100µm)	Gloss clear	Permanent, clear, non-residue	80gsm white paper double-PE coated	N/A			Up to 3 years
Semi Rigid printing	1000-150	Monomeric	6mil (150µm)	Gloss clear	Permanent, clear, non-residue	140gsm white paper double-PE coated	N/A	Indoor / Outdoor	Up to 3 years	
	1000-150R				EzPeel removable, clear, repositionable, non-residue					
	1000-151			High opacity gloss white	Permanent, clear non-residue		Grey adhesive or Air release liner			
	1000-151R				EzPeel removable, clear repositionable, non-residue					
	1000-152			High opacity matte white	Permanent, clear non-residue					
	1000-152R				EzPeel removable, clear repositionable, non-residue					

Remark: * Grey adhesive is non-residue in one year with lamination

Category	Product code	Film material	Film thickness	Finish	Adhesive	Release liner	Options	Indoor / outdoor	Durability	Ink compatibility
Wall wraps	RoughGrip101	Polymeric	4mil (100µm)	Gloss white	RoughGrip high grip permanent, clear non-residue	80gsm white paper double-PE coated	Grey adhesive or Air release liner	Indoor / Outdoor	Up to 5 years	
	RoughGrip102			Matte white						
Light box	1000-509T	Polymeric	3.5mil (90µm)	translucent matte white	Permanent, clear, non-residue	140gsm white paper double-PE coated	N/A	Indoor / Outdoor	Up to 5 years	
	1000-509	Monomeric	4.4mil (110µm)			80gsm white paper double-PE coated			Up to 3 years	
Static cling	50-S01 clear	Monomeric	6mil (150µm)	Clear	No adhesive	140gsm white paper single extra thick PE coated	N/A	Indoor / Outdoor	Up to 3 years	
	50-W01 White			White						
Specialty	1000-H01X	Monomeric	4mil (100µm)	holographic silver	Permanent, clear, non-residue	80gsm white paper double-PE coated w/air release	N/A	Indoor / Outdoor	Up to 3 years	
	Photo paper 600	Composite	12mil (300µm) overall	Matte white	Composite PVC/Synthetic paper		N/A			
	Roll-up media 610	Composite	10mil (250µm) overall	Matte white	composite PVC/PET grey back		N/A			
Dry Erase	200-ReErase00	PET	2mil (50µm)	Gloss clear	Permanent, clear, laminate adhesive	50 microns clear PET	N/A	Indoor	Up to 5 years	N/A
	200-ReErase01			Gloss white						
Vehicle printing wraps	EzWrapX01	Polymeric	2.2mil (55µm)	Gloss white	EzWrap low-tack/slow-rise, grey *, repositionable, non-residue	140gsm white paper double-PE coated, w/MicroFlo air egress	N/A	Indoor / Outdoor	Up to 5 years	
	EzWrapX02			Matte white						

Remark: * Grey adhesive is non-residue in one year with lamination

Category	Product code	Film material	Film thickness	Finish	Adhesive	Release liner	Options	Indoor / outdoor	Durability	Ink compatibility
Fleet printing wraps	1000-991GX	Polymeric	3mil (75µm)	Gloss white	Permanent, grey *, non-residue	80gsm white paper double-PE coated w/air release	N/A	Indoor / Outdoor	Up to 5 years	
	1000-992GX			Matte white						
Multipurpose laminte	200-P975	Polymeric	3mil (75µm)	Ultra crystal clear	Permanent, clear, laminate adhesive	75 microns matte clear PET	N/A	Indoor / Outdoor	Up to 5 years	N/A
	200-P175			Gloss clear		80gsm white paper single-PE coated				
	200-000	Monomeric	3.2mil (80µm)	Gloss clear		80gsm white paper single-PE coated	N/A	Indoor / Outdoor	Up to 3 years	N/A
	200-002			Silk-matte clear						
	200-005			Matte clear						
Specialty laminate	200-TH01	Monomeric	4mil (100µm)	Transparent holographic	Permanent, clear, laminate adhesive	75 microns matte clear PET	N/A	Indoor / Outdoor	Up to 3 years	N/A
	200-THG01			Transparent holographic glitter			360µm film available			
Floor graphic laminate	200-250	Monomeric	10mil (250µm)	Matte clear	Permanent, clear, laminate adhesive	80gsm white paper single-PE coated	N/A	Indoor / Outdoor	Up to 3 years	N/A

Remark: * Grey adhesive is non-residue in one year with lamination
